

ScriptSure Scheduler

ScriptSure Scheduler is advanced scheduling software that allows for an unlimited number of providers schedules and subschedules. ScriptSure Scheduler can accommodate multiple locations, daily, multiple day and weekly views and a master calendar of all facility appointments. Set office hours, assign providers custom colors and easily print the day's appointments. Double-book time slots and easily schedule with the "drag and drop" interface. Find patient appointments and open appointment time slots in seconds. Secured by password access.

The screenshot displays the ScriptSure Scheduler software interface. At the top, the current user is identified as 'John Q. Heilams Practice'. The interface includes a navigation bar with various icons for actions like Refresh, Open Today, Reset Layout, Print, Quick Print, Delete, Add, Edit, Select All, Find Scheduled Pt, Find Open Appointment, New Pt, Cancel, Patient No Show, Check In, and Check Out. Below the navigation bar, the current view is set to 'Admin Office' for 'Organization 1 - Business Unit 1 - Heilams Clinic' with a 'Schedule Type' of 'Office' and a 'Count' of 4. The main interface is divided into three sections: a calendar, a patient list, and an appointment chart. The calendar shows the months of March and April 2012, with the 23rd of March highlighted. The patient list on the left includes: 1 Patient, John; 2 Patient, Sample1; 3 Patient, Sample2; and 8 Patient, Sample3. The appointment chart on the right shows a grid of time slots for the 23rd of March, with four appointments scheduled: Chart 1 (John Patient, new patient visit), Chart 2 (Sample1 Patient, new patient visit), Chart 3 (Sample2 Patient, new patient visit), and Chart 8 (Sample3 Patient, follow-up patient visit).
